Roorkee, Uttarakhand, India

PROFESSIONAL SUMMARY

Data Analytics undergraduate and ONGC Foundation Scholar with hands-on internship experience and three end-to-end analytics projects across banking, retail, and quick-commerce. Skilled in SQL, Python, PostgreSQL, Power BI, and statistical analysis — turning raw data into business insights and executive dashboards.

TECHNICAL SKILLS

BI & Visualization: Power BI (DAX, Data Modeling, Drill-Through, KPI Cards), Tableau, Streamlit, Plotly, Matplotlib, Seaborn

Programming & Database: Python (Pandas, NumPy, SciPy), SQL (Joins, CTEs, Window Functions), PostgreSQL, SQLite

Analytics & Statistics: Statistical Testing (Chi-Square, ANOVA), Cohort & Risk Analysis, EDA, KPI Design

Tools: Microsoft Excel (Pivot Tables, Power Query, openpyxl), Git & GitHub (Version Control, Documentation)

Soft Skills: Analytical Thinking, Data Storytelling, Business Communication

EXPERIENCE

Data Analytics Intern — PrimrIQ

June – July 2026

Certificate ID: PIQ/CERT/260714/DA/C991

- Applied SQL, Python, and Excel across a month of mentor-guided, industry-style case studies spanning data cleaning, reporting, and business performance analysis.
- Rebuilt a broken ERP data pipeline for a simulated FMCG distributor client in Python (openpyxl) after merged-cell corruption — scored 95/100.
- Authored 10 SQL queries against a SQLite database; revised an initial 78/100 submission using window functions and dynamic filtering per mentor feedback.

FEATURED PROJECTS

Bank Loan Portfolio Risk & Analytics System

July 2026

PostgreSQL | Python (Pandas, SciPy) | SQL | Streamlit | Plotly | [Link](#) | [Live Demo](#)

- Engineered an ETL pipeline loading 500,000+ retail loan records into a cloud PostgreSQL (Neon) warehouse.
- Ran Python/SQL statistical tests (Chi-Square, ANOVA, vintage cohort analysis) — found Grade F & G loans default above 50%.
- Modeled “Policy A” (halt Grade F & G originations): a ~3% volume trade-off for a \$78.1M gain in net profit.
- Shipped a production-style, cloud-hosted analytics application — a 4-page Streamlit + Plotly dashboard with real-time policy simulation — fully documented on GitHub.

Impact: Quantified that halting Grade F & G originations could increase projected portfolio profit by **\$78.1M** while reducing loan volume by only ~3%.

RetailX Analytics Dashboard

April 2025

Power BI | SQL | Data Modeling | [Link](#)

- Extracted and cleaned data from 4+ tables using multi-table SQL joins and CTEs into an analysis-ready dataset.
- Built a star-schema Power BI model linking sales, product, and customer dimensions for drill-through analysis.
- Wrote DAX measures for revenue growth and segment contribution — 2 product lines drove 60%+ of total sales.

Impact: Drill-through reports helped isolate underperforming regions tied to a 30% revenue gap.

Blinkit Sales Analytics Dashboard

April 2025

Power BI | DAX | Quick-Commerce Analytics | [Link](#)

- Analyzed ₹2.5Cr+ in simulated sales across 20+ outlet types and 8 categories in a Power BI dashboard.
- Designed 10+ DAX measures — revenue growth, AOV, outlet ranking, category share — for KPI monitoring.
- Built KPI cards and treemaps: Tier-1 outlets, just 30% of locations, drove 45%+ of revenue.

Impact: Top 5 outlets outsold the bottom 10 by 3x, informing outlet expansion strategy.

EDUCATION

Bachelor of Technology — Information Technology

2023 – 2027 (Expected)

Hemvati Nandan Bahuguna Garhwal University, Srinagar (Garhwal), Uttarakhand — 4th Year

Relevant Coursework: Statistics, Database Management Systems, Data Structures, Python Programming, Mathematics

Intermediate (Class XII), Science — 90.2% — National Inter College, Dhanauri, Haridwar (BSEU: Uttarakhand Board)

2023

High School (Class X) — 83.8% — Sheffield School, Roorkee (CBSE)

2021

CERTIFICATIONS

Data Analysis | SQL, Tableau, Power BI & Excel | Real Projects

April 2026

Udemy • Instructor: Graeme Gordon • Certificate ID: UC-0515de3c-1f95-4c74-a287-1371cece7eba

ACHIEVEMENTS & EXTRACURRICULARS

- ONGC Foundation Scholar — merit-based national scholarship, awarded annually through B.Tech.
- Built and published 3 end-to-end analytics projects spanning banking risk, retail, and quick-commerce, each fully documented on GitHub.
- Self-directed learner — completed a 13.5-hour multi-tool analytics certification and a PrimrIQ Data Analytics internship alongside coursework.
